B.TECH

Retail Business Rhythms Revamped Version

Feb 2023

RBR Revamped Version Objectives

1. **Logic Adjustments**
   - AC Quantities adjusted according to the assembly code thus reflecting in AC ASP & total B.TECH ASP.
   - Channel Logic Adjustments to increase accuracy with Finance Channel Definition.
   - Categories Logic adjustment to increase accuracy with merchandising.
   - Traffic Adjustments to include new warehouses
2. **Dashboard re-visualization & Layout**
   - More clear views & visuals to convey the data insight and story in a more visually appealing way.

Logic Adjustment Details:
Quantities Adjustments

- AC quantities is adjusted to be counted according to assembly code instead of item code, which prevented counting AC accessories SKUs.
- This consequently is reflected in both **ASP of AC category, and the overall B.TECH ASP.**
  - Validation was held against retail figures.

	Revamped RBR	RBR before adjustments
AC ASP	ASP 10,380 YOY 10% ↑ MOM 5% ↑	3,497 ASP
Overall ASP	ASP 4,798 YOY 77% ↑ MOM 11% ↑	2,489 ASP

Logic Adjustment Details:
Categories Classification

- SKUs are assigned to categories according to merchandizing department classification with the closest accuracy and improvement will be applied moving forward.

- **Validation covered sales** from 1st to 30th of January 2023 with the below details.

Accuracy Percentage with Merchandising

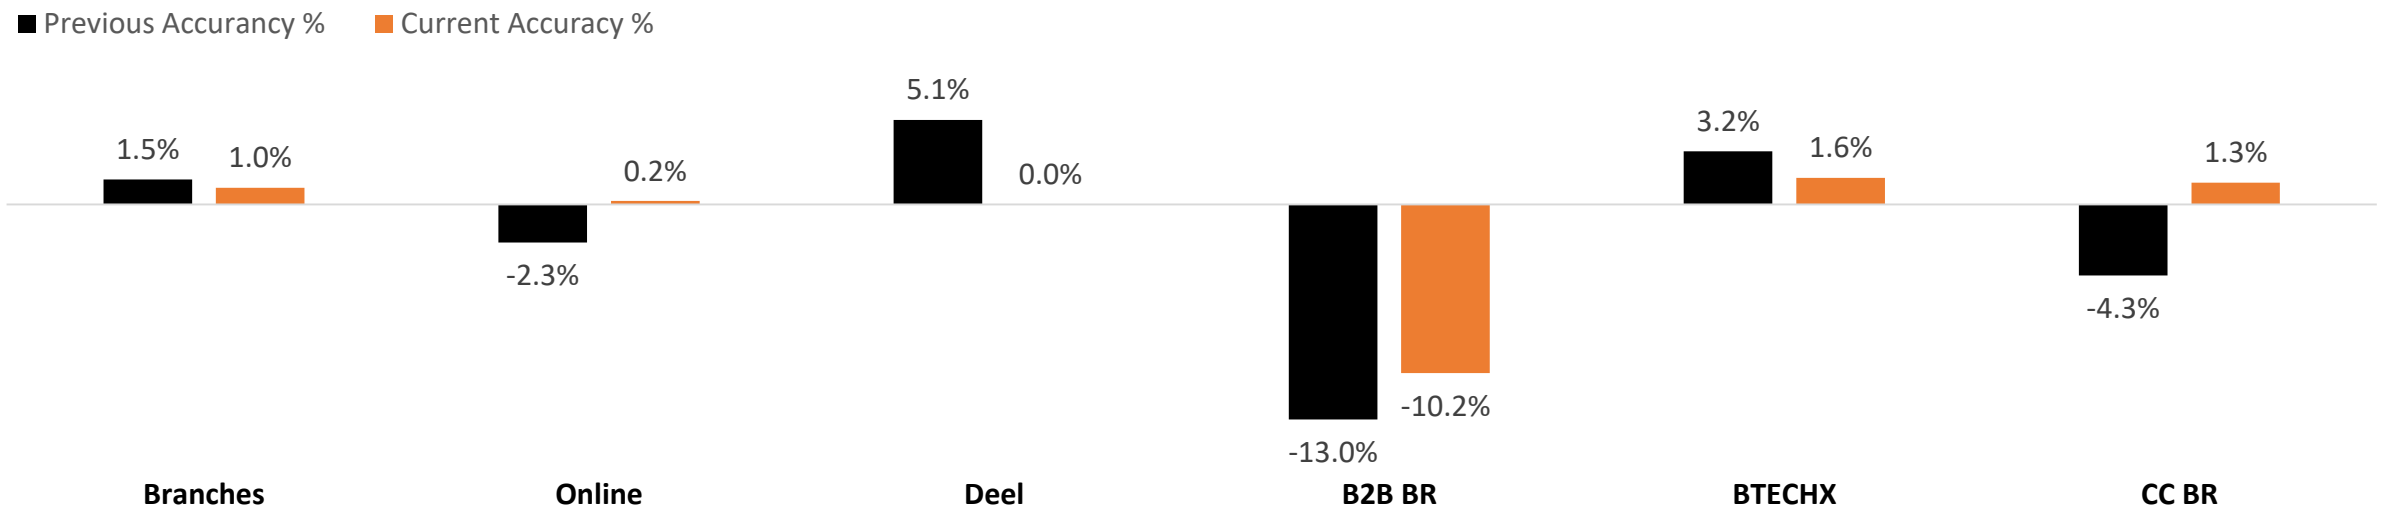

ONE TEAM...ONE DREAM

Logic Adjustment Details:
Channel Classification

- Sales channels are stated according to finance department arrangement.
- Validation Covered Sales from 1st to 28th of January 2023 with the below details

Accuracy Percentage with Finance

Logic Adjustment Details:
Traffic

- All new warehouses are removed from traffic calculations,
- Store Leadership & Clusters are adjusted according to latest allocation from Retail Team.
- CFC Mall, New Damanhour, New Roxcy & Masara stores traffic is modified, since they were misallocated in traffic calculation and below are the summary of the changes for Jan Conversion & Traffic

	Revamped RBR			OLD RBR			Variance		
Store	Conversion	Transactions	Traffic	Conversion	Transactions	Traffic	Conversion	Transactions	Traffic
CFC Mall	22.4%	2,273	10,172	24.2%	2,483	10,261	-1.8%	-210	-89
Masara	14.6%	642	4,409	15.3%	680	4,456	-0.7%	-38	-47
New Damanhour	15.5%	925	5,961	16.9%	1,020	6,048	-1.3%	-95	-87
New Roxy	13.2%	920	6,986	14.1%	998	7,066	-1.0%	-78	-80

Dashboard Re-Visualization:
What was Changed?

Adjusted Pages

- Executive gauge
- Trends
- Region/Category/Brand Analysis
- Top SKUs (Separated)

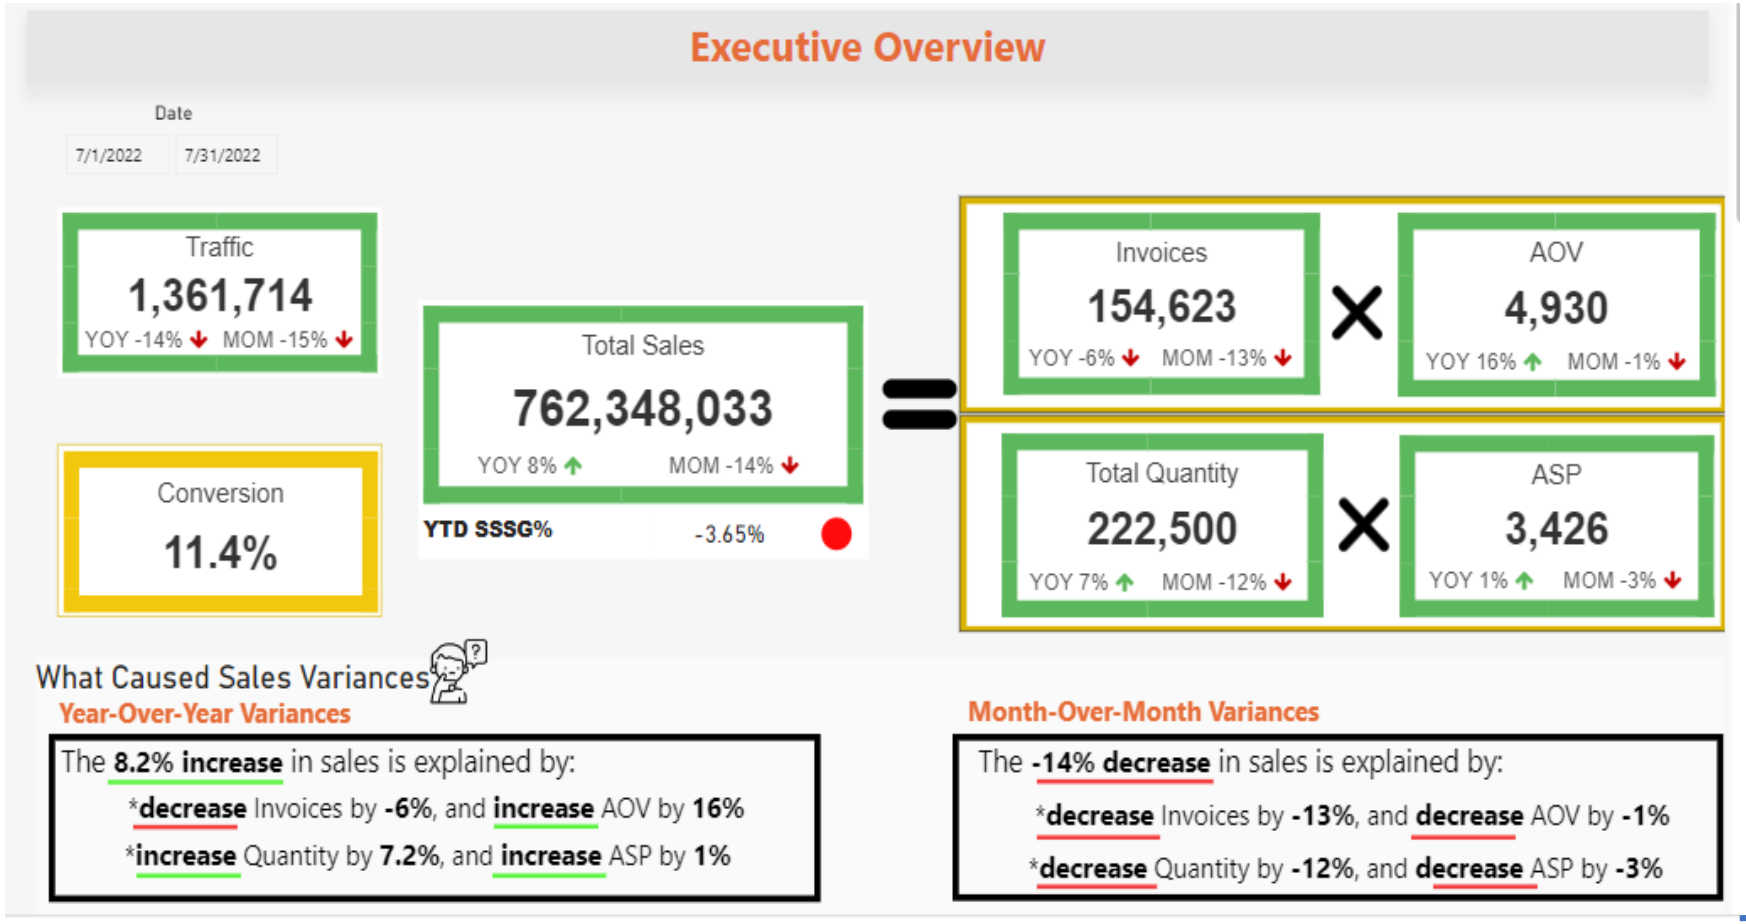

New Pages

- Root Cause Analysis
- Comparatives
- Volume Analysis
- Week Over Week
- Daily Traffic Details

Unchanged Pages

- Store Morning Brief
- MTD Leaderboard
- Sales Team Performance
- Traffic Details
- Traffic & Conversion

Dashboard Re-Visualization:
Adjusted Pages - Executive Gauge

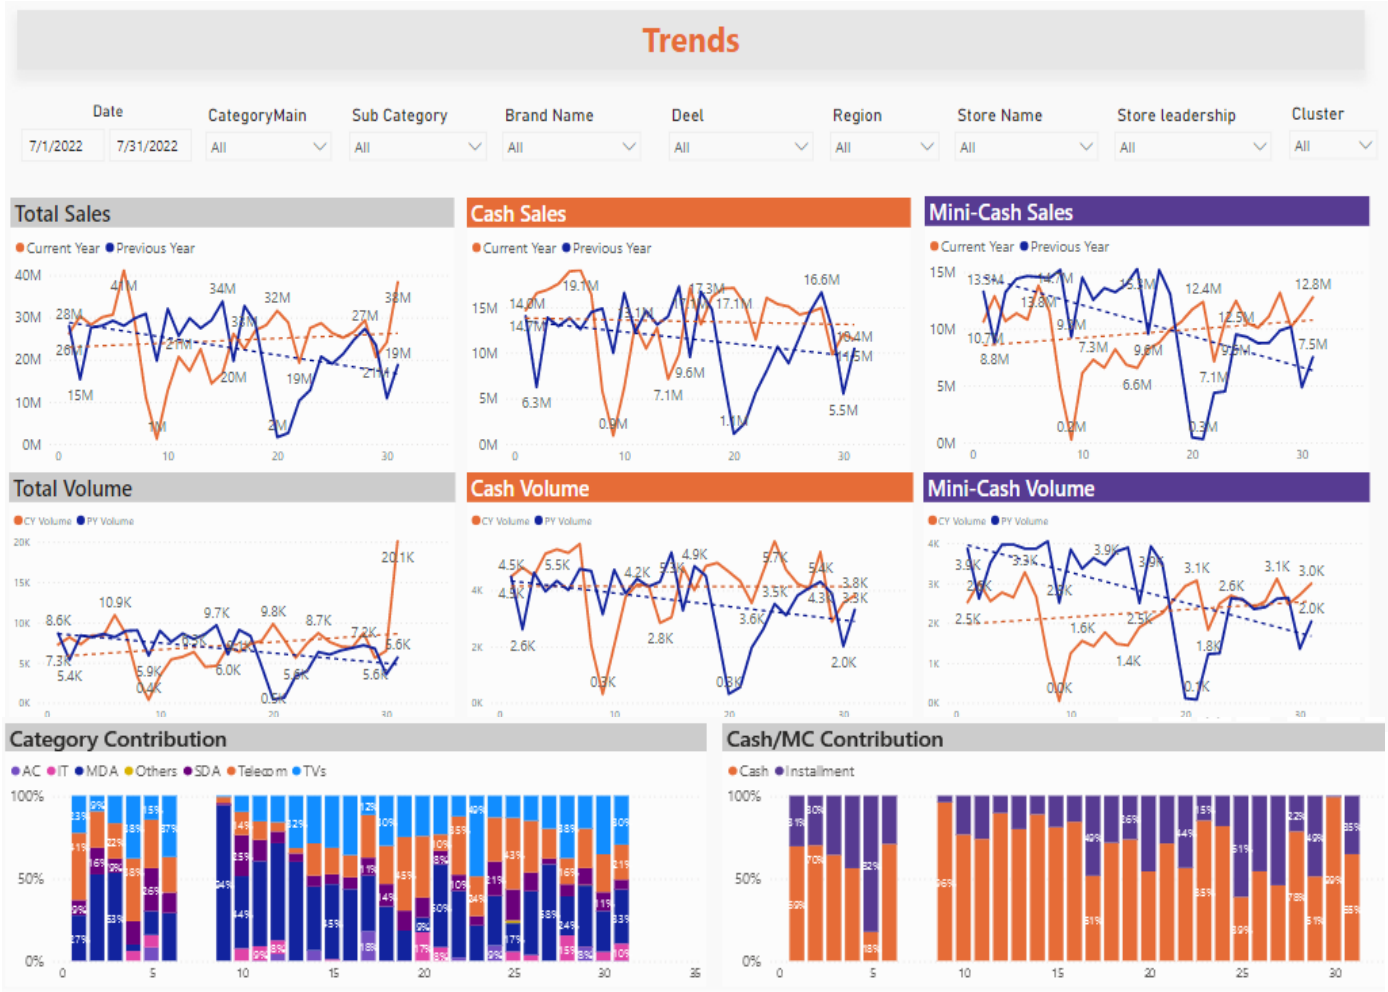

To view all the variables leading to Sales and whether MOM/YOY Change was driven by changes :

- Invoices & AOV
- Quantities & ASP

<u>Rest of Page includes:</u>

- Channel/Region/Categories Contribution
- Noon Vs BTECH
- Cash Vs MC
- Agencies Vs Domestic

Dashboard Re-Visualization:
Adjusted Pages – Trends

More Trend Views on:

- Sales & Volume By Classifications of Cash & MC
- Cash/MC & Categories Contribution throughout time

Filtering Variables:

Category/Subcategory/Brand/Deel/Region/ Store Name/Store Leadership/Cluster
