Five moves to scale Brandshop

1	**Lock in the Nov 1 setup** Make whatever drove 5x traffic the day-one default	**Traffic, Bounce**
2	**Fix the web experience** Audit product-view tracking and shop layout (1.3% vs 46-52% in apps)	**Product CTR**
3	**Lean into iOS** Highest converter (2.84%) on only 7% of traffic	**Conversion**
4	**Close the last mile** Brand deals, bundles and price badges at the product view	**Conversion**
5	**Launch at full speed from day 1** First 18 days ran at ~320 visits/day; track every KPI daily by platform	**All KPIs**

Next launch: make the best days the norm
